

Beef Cattle Production

Contents

Part I. Introduction

- Chapter 1 – Beef Production – An Overview
- Chapter 2 – Commercial Cow/Calf Production
- Chapter 3 - The Stocker Industry
- Chapter 4 - The Cattle Feeding Industry
- Chapter 5 – The Product

Part II. Beef Cattle Breeding

- Chapter 6 – Basic Genetic Principles
- Chapter 7 – Important Beef Cattle Traits
- Chapter 8 – Breeds of Beef Cattle
- Chapter 9 – Matching Genetics to the Resources
- Chapter 10 – Crossbreeding Beef Cattle
- Chapter 11 – Expected Progeny Differences
- Chapter 12 – Selection of Bulls and Replacement Heifers

Part III. Beef Cattle Reproduction

- Chapter 13 – Reproduction in Beef Cows and Heifers
- Chapter 14 – Estrus Synchronization

Part IV. The Ruminant Digestive System and Required Nutrients

- Chapter 15 - The Ruminant Digestive System
- Chapter 16 - Water
- Chapter 17 – Energy
- Chapter 18 – Protein
- Chapter 19 – Minerals
- Chapter 20 – Vitamins
- Chapter 21 – Feed Composition – Nutrient Content

Part V. Feeding for Reproduction and Calf Survival

- Chapter 22 – Feeding for Reproduction
- Chapter 23 – Body Condition Scores
- Chapter 24 – Impact of Body Condition Score on Reproduction
- Chapter 25 – Changing Body Condition Score
- Chapter 26 – Impact of Nutrition on Calf Survival and Growth

Part VI. Evaluating Diet Adequacy

- Chapter 27 – Feed Intake by Beef Cattle
- Chapter 28 - Feed Analysis
- Chapter 29 – Evaluating Diet Adequacy
- Chapter 30 – Evaluating Diet Adequacy in Grazing Situations

Part VII. Supplementation of Cattle Diets

- Chapter 31 - Economics of Supplementation
- Chapter 32 - Supplementation of Energy/Protein
- Chapter 33 - Supplementation of Minerals
- Chapter 34 – Supplementation of Vitamins
- Chapter 35 – Minimizing Supplementation Costs
- Chapter 36 – Supplementation – Delivery Systems
- Chapter 37 - Creep Feeding

Part VIII. Additional Cowherd Management Topics

- Chapter 38 - Managing Rangelands and Introduced Pastures
- Chapter 39 – Feeding Replacement Heifers
- Chapter 40 – Feeding and Managing Herd Bulls
- Chapter 41 – Feeding High Fat Diets to Improve Reproduction
- Chapter 42 – Feeding During Drought
- Chapter 43 – Managing Feed Costs
- Chapter 44 – Beef Cow Herd Health

Part IX. Stocker Management

- Chapter 45 – Stocker Management
- Chapter 46 – Balancing Rations for Growing Cattle
- Chapter 47 - Price Slides

Part X. Finishing Beef Cattle

- Chapter 48 – Finishing Cattle Management
- Chapter 49 – Grains Sources and Grain Processing for Finishing Cattle
- Chapter 50 – By-products and Roughages in Finishing Rations
- Chapter 51 – Natural and Organic Beef
- Chapter 52 - Marketing Fed Cattle
- Chapter 53 – Custom Cattle Feeding

Part XI. Special Topics

- Chapter 54 –Feeding Cull Cows
- Chapter 55 –Risk Management
- Chapter 56 – Interpreting a Feed Tag
- Chapter 57 – Cattle Handling Facilities
- Chapter 58 – Chemical Treatment of Roughages
- Chapter 59 - Industry Issues
